

## RCW 26.26.715

## Consent to assisted reproduction.

(1) Consent by a couple who intend to be parents of a child conceived by assisted reproduction must be in a record signed by both persons. This requirement does not apply to a donor.

(2) Failure of the person to sign a consent required by subsection (1) of this section, before or after birth of the child, does not preclude a finding of parentage if the persons resided together in the same household with the child and openly held out the child as their own.

[2011 c 283 § 48; 2002 c 302 § 604.]
